

Homework Assignment 1

1. Work *Example 3-3* on CSUEB Hadoop. Type out all the commands in each step of the process and print out a screenshot of the final results in CSUEB Hadoop.
2. Work *Example 3-4* on CSUEB Hadoop. Type out all the commands in each step of the process and print out a screenshot of the final results (showing the file directory) in CSUEB Hadoop.

Example 3-3. Displaying files from a Hadoop filesystem on standard output twice.

Run on Local disk

```
scp "/Users/amishafarhanashaik/Desktop/MSBA/BAN 632 - Big Data/hadoop-book-3e/ch03/src/main/java/FileSystemDoubleCat.java"
student39@134.154.190.204:/home/student39/
```

Command for copying a file from local disk to HDFS:

```
hdfs dfs -copyFromLocal "/home/student39/ FileSystemDoubleCat.java " /home/39student39/
```

Sets the HADOOP_CLASSPATH environment variable to /home/student39/ so Hadoop can find additional Java classes and JAR files.

```
export HADOOP_CLASSPATH=/home/student39
```

Command for compiling Java file:

```
javac -classpath /home/student9/hadoop-common-2.6.1.jar:/home/student9/hadoop-mapreduce-client-core-2.6.1.jar:/home/student9/commons-cli-2.0.jar -d /home/student9/ FileSystemDoubleCat.java
```

Command for running Java in Hadoop

```
hadoop FileSystemDoubleCat hdfs:///home/39student39/input39/quangle.txt
```

Local Disk:

```

On the top of the Crumpey Tree
The Quangle Wangle sat,
But his face you could not see,
On account of his Beaver Hat.
On the top of the Crumpey Tree
The Quangle Wangle sat,
But his face you could not see,
On account of his Beaver Hat.
[student39@msba-hadoop-name ~]$ hdfs dfs -copyFromLocal "/home/student39/1400-8.txt" /home/39student39/
```

Example 3. shows how to copy a local file to a Hadoop filesystem illustrating progress.

Run on Local disk

```
scp "/Users/amishafarhanashaik/Desktop/MSBA/BAN 632 - Big Data/hadoop-book-3e/ch03/src/main/java/FileCopyWithProgress.java"
student39@134.154.190.204:/home/student39/
```

Command for copying a file from local disk to HDFS:

```
hdfs dfs -copyFromLocal "/home/student39/FileCopyWithProgress.java" /home/39student39/
```

Command for compiling Java file:

```
javac -classpath /home/student39/hadoop-common-2.6.1.jar:/home/student39/hadoop-mapreduce-client-core-2.6.1.jar:/home/student39/commons-cli-2.0.jar -d /home/student39/
FileCopyWithProgress.java
```

Sets the HADOOP_CLASSPATH environment variable to /home/student39/ so Hadoop can find additional Java classes and JAR files.

```
export HADOOP_CLASSPATH=/home/student39
```

Command for running Java in Hadoop

```
hadoop FileCopyWithProgress /home/student39/1400-8.txt
hdfs:///home/39student39/input39/1400-8.txt
```

Local Disk:

```
